-----------	--------------------------------	-------------------

**Undergraduate**

2000-2005	Columbus State University Columbus, GA	BS Nursing
-----------	---	---------------

**Student Nurse Anesthetist Clinical Experience**

*Clinical Rotations, approximately 800 cases completed, Mercer University Nurse Anesthesia Program, Macon, GA*

- Twelve-month general rotation at The Medical Center of Central Georgia including specialty rotations in pediatric, cardiac, vascular, thoracic, neuro, high risk obstetrics, and level one trauma anesthesia.
- One-month general rotation at Memorial University Medical Center in Savannah, GA
- One-month general rotation at Piedmont Fayette Hospital in Fayetteville, GA
- One-month general rotation at Henry County Hospital in Henry, GA
- One-month general rotation at Martin Army Community Hospital in Ft. Benning, GA
- One-month general rotation at Northeast Georgia Medical Center in Gainesville, GA

**Simulation Workshops/Courses Attended**

*All workshops/courses were held at the Peyton Anderson Building at the Medical Center of Central Georgia, Mercer University.*

- **Fiberoptic Bronchoscopy, Double-Lumen Endobronchial Tube Placement, and Jet Ventilation Course:** A 6-hour course focused on psychomotor and cognitive skills in the use of FOB for DLEBT placement. Identification of key bronchoscopic anatomy and trans-tracheal puncture were discussed.
- **Central Venous Catheter Insertion Workshop:** A 4-hour workshop focused on psychomotor and cognitive skills in the area of IJ and Subclavian catheter insertions using simulated models with review of use of ultrasound and key anatomic landmarks for catheter placement.

- **CRNA Airway Workshop:** A four-hour course focused on developing skills on assessing and managing airway skills essential to anesthesia provider. The course included intubating adult, pediatric and neonate simulator models using different blades, endotracheal tubes and LMAs.
- **Anesthesia Crisis Leadership Course:** A multidisciplinary course focused on management of complex problem-based situations and crew resource management skills. A student anesthetist and teacher designed course working together to discuss scenarios including airways fires, difficult intubations, anaphylaxis, and perioperative MI.
- **Spinal and Epidural Workshop:** A 2-hour workshop focused on skills in the area of spinal and epidural placement using simulator models with the review of key anatomic landmarks for needle placement.
